

MICRO SWITCH™ BX/BX2 Series

Hazardous Area Switches

DESCRIPTION

The MICRO SWITCH™ BX/BX2 Series is ideal for outdoor use or in adverse environments where a combination of explosion proof plus sealing requirements are needed. To comply with explosion-proof requirements the BX/BX2 has flame paths within the housing, which cool exploding gases below the ignition temperature before they reach explosive gases surrounding the housing. Flame paths on the BX/BX2 are (1) an extended plunger between the switch cavity and head and (2) the cover-housing threads on the front of the switch.

While the MICRO SWITCH™ BX Series features an aluminum housing, the MICRO SWITCH™ BX2 Series has a 316L stainless steel housing that provides enhanced corrosion resistance in applications exposed to aggressive, caustic agents, as well as those often present in chemical processing plants, off-shore/near-shore sites, and other hazardous areas.

These products are weather sealed for outdoor use and designed for explosive gas/dust environments. The BX/BX2 Series is directly interchangeable with the LSX. Adapter plate not required. All heads are field adjustable at 90° increments.

Honeywell explosion-proof switches are designed specifically for use in hazardous location applications. The BX/BX2 enclosure is sealed for protection against corrosion, water, dust and oil as defined in IEC60529. The temperature

rating for these products depends upon the seal material used. Products using a fluorosilicone seal have a rating of -40 °C to 70 °C [-40 °F to 158 °F]. Products using a fluorocarbon seal have a rating of -12 °C [10 °F] to 70 °C [158 °F]. These enclosures meet Ex d IIC T6, Ta -40 °C to 70 °C and Ta -12 °C to 70 °C, respectively. As well as Ex d tD A21 IP67 T85 °C. SIRA 00ATEX1037X and IECEx SIR 07.0102X.

Compliance with the Essential Health and Safety Requirements has been assured by compliance with EN 60079-0:2006, EN 60079-1:2007, EN 61241-0:2004, EN 61241-0:2006, IEC 60079-0:2004 4th Ed., IEC 60079-0:2007 6th Ed., IEC 61241-0:2004 1st Ed., and IEC 61241-1:2004 1st Ed. The maximum construction gap (ic) is less than that required by Table 2 of EN/IEC60079-1:2007, clause 5.2.2 as detailed below.

Flame path	Max. gap	Comment
Push rod & bearing	0,076 mm	Cylindrical spigot joint

All BX2 conduit types and BX products with conduit types 1/2-14NPT, 3/4-14NPT also meet the North American Hazardous Locations Designation: NEMA 7 - Class I, Groups B, C and D; NEMA 9 - Class II, Groups E, F and G and comply with UL Standard: UL 894.

FEATURES

- BX (M20, PG13.5, or PF1/2 conduit): ATEX and IEC Ex
- BX (1/2-14 NPT, 3/4-14 NPT): UL, CSA, ATEX, IEC Ex
- BX2: UL, cUL, ATEX IEC Ex
- BX/BX2: IP67; NEMA 1, 3, 4, 6, 13
- BX (1/2-14 NPT, 3/4-14 NPT) and BX2: NEMA 7, 9 (Div. 1, Class I, Groups B, C, & D Div 1, Class II, Groups E, F, & G)
- BX/BX2: II 2 G; Ex d IIC T6 • II 2 D; Ex d tD A21 T85°C
- Choice of housing: aluminum or 316L stainless steel
- Diverse conduit selection for wide range of applications
- Variety of heads and non-sparking actuators
- 10 A continuous carry electrical rating
- Choice of silver or gold contacts
- External and internal grounding screw
- Fluorocarbon and low-temperature sealing

POTENTIAL APPLICATIONS

- Control valves and actuators
- Offshore drilling
- Grain elevators
- Petrochemical plants
- Chemical plants
- Waste treatment
- Paint booths
- Mining conveyors
- Pulp and paper coating
- Hazardous waste handling

MICRO SWITCH™ BX/BX2 Series

SELECTION GUIDE

Hazardous Area Switches

BX MOUNTING DIMENSIONS (For reference only) mm/in

Conduit sizes 1/2-14NPT, 3/4-14NPT, M20, PG13.5, PF1/2 are available for each switch type and carry ATEX and IEC Ex approvals. 1/2-14 NPT, 3/4-14 NPT, and M20 carry UL and CSA approvals
Verify that the mating threaded fitting is identical with the conduit thread shown on the product nameplate

MICRO SWITCH™ BX/BX2 Series

BX2 MOUNTING DIMENSIONS (For reference only) mm/in

Conduit sizes 1/2-14NPT, 3/4-14NPT, M20, PG13.5, PF1/2 are available for each switch type and carry ATEX and IEC Ex approvals. 1/2-14 NPT, 3/4-14 NPT, and M20 carry UL and CSA approvals
Verify that the mating threaded fitting is identical with the conduit thread shown on the product nameplate

WARNING

IF USED IN APPLICATIONS CONCERNING HUMAN SAFETY

- Use only NC direct opening (“positive opening”/“positive break”) contacts, identified by the symbol.
- Do NOT use flexible/adjustable actuators. Only use actuators designed for safety applications.
- Do NOT defeat, tamper, remove, or bypass this switch.
- Hazardous voltage, disconnect power before servicing
- Strictly adhere to all installation and maintenance instructions
- Consult with local safety agencies and their requirements when designing a machine-control link, interface and all control elements that affect safety.

Failure to comply with these instructions could result in death or serious injury.

WARNING

OPENING PRODUCTS HAZARD

DO NOT OPEN these products when energized or in a flammable gas atmosphere.

Failure to comply with these instructions could result in death or serious injury.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

WARNING

IMPROPER CONDUIT THREAD USE

DO NOT USE any other conduit thread than the one identified on the product. Verify that the mating threaded fitting is identical with the conduit thread shown on the product nameplate.

Failure to comply with these instructions could result in death or serious injury.

WARNING

MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

SALES AND SERVICE

Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office or:
